

HYDRANT FLUSHING NOTICE

TIME FRAME:
AUGUST–
SEPTEMBER 2026

TIME:
9:00 AM
TO 2:00 PM

AREA:
ENTIRE
DISTRIBUTION SYSTEM

WHY WE FLUSH HYDRANTS:

- ✓ Allows for water turnover and cleaning the inside of water mains
- ✓ Improves water quality
- ✓ Ensures that hydrants are fully operational

WHAT TO EXPECT:

Signs posted in the area that's being flushed

Temporarily discolored water and/or
changes in water pressure
*(run your cold bathtub faucet or cold water tap
with no aerator to clear up discoloration/air)*

WHAT TO AVOID DURING FLUSHING IN YOUR AREA:

Using your warm water tap
(this could introduce minerals into your water heater)

Washing laundry
(this could discolor your laundry)

If you have any questions or unresolved discoloration,
please contact our office at **(978) 251-3931.**

Thank you for your patience and understanding.
